

DEESME

National Schemes for Energy Efficiency in SMEs

This H2020-funded project aims to enable small and medium enterprises (SMEs) to join the energy transition. Companies joining DEESME can take advantage of the multiple benefits of energy management approaches through training, guidance and access to investment schemes.

DEESME also fosters the adoption of national energy transition schemes through collaboration with national authorities. The guidelines and recommendations developed in DEESME aim to implement EU policies, best practices and institutionalisation activities on energy efficiency on the national level.

methodology:

SELECTION
COMMITMENT
TRAINING
KNOWLEDGE EXCHANGE
IMPLEMENTATION
SUPPORT
ENERGY AUDIT

SMALL & MEDIUM ENTERPRISES

ENERGY SAVINGS
EMISSION REDUCTION
INNOVATION POTENTIAL
INVESTMENT
OPPORTUNITIES
POLICY COMPLIANCE

activities:

500 companies trained in energy management

energy audits in 50 companies

10 national authorities developing national schemes for energy audits

policy implementation in 5 Member States

25 Energy Management Systems implemented
